

[62 FR 40952, July 31, 1997]

APPENDIX B TO PART 541—PASSENGER MOTOR VEHICLE LINES (EXCEPT LIGHT DUTY TRUCKS) WITH THEFT RATES BELOW THE 1990/91 MEDIAN THEFT RATE, SUBJECT TO THE REQUIREMENTS OF THIS STANDARD

Manufacturer	Subject lines
Chrysler .....	Dodge Ramcharger (MPV). Dodge Ram Wagon/Van B150.
Ferrari .....	Testarossa.
Ford .....	Crown Victoria. Festiva. Mercury Grand Marquis. Mercury Sable. Taurus.
General Motors .....	Chevrolet Astro (MPV). Chevrolet Celebrity. Chevrolet Sprint. GMC Safari (MPV). Oldsmobile Custom Cruiser.
Honda .....	Civic.
Mazda .....	Navajo.
Nissan .....	Axxess.
Porsche .....	944.
Rover Group .....	Range Rover (MPV).
Volvo .....	760.
Volkswagen .....	Fox. Passat.

[59 FR 64169, Dec. 13, 1994]

APPENDIX C TO PART 541—Criteria for Selecting Lines Likely To Have High Theft Rates

*Scope*

These criteria specify the factors the Administrator will take into account in determining whether a new line is likely to have a high theft rate, and, therefore, whether such line will be subject to the requirements of this theft prevention standard.

*Purpose*

The purpose of these criteria is to enable the Administrator to select, by agreement with the manufacturer, if possible, those new lines which are likely to have high theft rates.

*Application*

These criteria apply to lines of passenger motor vehicles initially introduced into commerce on or after January 1, 1983.

*Methodology*

These criteria will be applied to each line initially introduced into commerce on or after January 1, 1983. The likely theft rate for such lines will be determined in relation to the national median theft rate for 1983 and 1984. If the line is determined to be likely to have a theft rate above the national

median, the Administrator will select such line for coverage under this theft prevention standard.

*Criteria*

1. Retail price of the vehicle line.
2. Vehicle image or marketing strategy.
3. Vehicle lines with which the new line is intended to compete, and the theft rates of such lines.
4. Vehicle line(s), if any, which the new line is intended to replace, and the theft rate(s) of such line(s).
5. Presence or absence of any new theft prevention devices or systems.
6. Preliminary theft rate for the line, if it can be determined on the basis of currently available data.

PART 542—PROCEDURES FOR SELECTING LINES TO BE COVERED BY THE THEFT PREVENTION STANDARD

Sec.

542.1 Procedures for selecting new lines that are likely to have high or low theft rates.

542.2 Procedures for selecting low theft new lines with a majority of major parts interchangeable with those of a high theft line.

AUTHORITY: 15 U.S.C. 2021, 2022, and 2023; delegation of authority at 49 CFR 1.50.

SOURCE: 59 FR 21672, Apr. 26, 1994, unless otherwise noted.

**§542.1 Procedures for selecting new lines that are likely to have high or low theft rates.**

(a) *Scope*. This section sets forth the procedures for motor vehicle manufacturers and NHTSA to follow in the determination of whether any new vehicle line is likely to have a theft rate above or below the median theft rate.

(b) *Application*. These procedures apply to each manufacturer that plans to introduce a new line into commerce in the United States on or after April 24, 1986, and to each of those new lines.

(c) *Procedures*. (1)(i) For each new line introduced before the 1997 model year, each manufacturer uses the criteria in appendix C of part 541 of this chapter to evaluate each new line and to conclude whether the new line is likely to have a theft rate above or below the median theft rate established for calendar years 1990 and 1991.

(ii) For each new line to be introduced for the 1997 or subsequent model

years, each manufacturer shall use the criteria in appendix C of part 541 of this chapter to evaluate each new line and to conclude whether the new line is likely to have a theft rate above or below the median theft rate.

(2)(i) For each new line to be introduced before the 1997 model year, the manufacturer submits its evaluations and conclusions made under paragraph (c)(1)(i) of this section, together with the underlying factual information, to NHTSA not less than 18 months before the date of introduction. The manufacturer may request a meeting with the agency to further explain the bases for its evaluations and conclusions.

(ii) For each new line to be introduced for the 1997 or subsequent model years, the manufacturer shall submit its evaluations and conclusions made under paragraph (c)(1)(ii) of this section, together with the underlying factual information, to NHTSA not less than 15 months before the date of introduction. The manufacturer may request a meeting with the agency during this period to further explain the bases for its evaluations and conclusions.

(3) Within 90 days after its receipt of the manufacturer's submission under paragraph (c)(2) of this section, the agency independently evaluates the new line using the criteria in appendix C of part 541 of this chapter and, on a preliminary basis, determines whether the new line should or should not be subject to § 541.2 of this chapter. NHTSA informs the manufacturer by letter of the agency's evaluations and determinations, together with the factual information considered by the agency in making them.

(4) The manufacturer may request the agency to reconsider any of its preliminary determinations made under paragraph (c)(3) of this section. The manufacturer shall submit its request to the agency within 30 days of its receipt of the letter under paragraph (c)(3) of this section. The request shall include the facts and arguments underlying the manufacturer's objections to the agency's preliminary determinations. During this 30-day period, the manufacturer may also request a meeting with the agency to discuss those objections.

(5) Each of the agency's preliminary determinations under paragraph (c)(3) of this section shall become final 45 days after the agency sends the letter specified in paragraph (c)(3) of this section unless a request for reconsideration has been received in accordance with paragraph (c)(4) of this section. If such a request has been received, the agency makes its final determinations within 60 days of its receipt of the request. NHTSA informs the manufacturer by letter of those determinations and its response to the request for reconsideration.

**§ 542.2 Procedures for selecting low theft new lines with a majority of major parts interchangeable with those of a high theft line.**

(a) *Scope.* This section sets forth the procedures for motor vehicle manufacturers and NHTSA to follow in the determination of whether any new lines that will be likely to have a low theft rate have major parts interchangeable with a majority of the covered major parts of a line having or likely to have a high theft rate.

(b) *Application.* These procedures apply to:

(1) Each manufacturer that produces—

(i) At least one passenger motor vehicle line that has been or will be introduced into commerce in the United States and that has been listed in appendix A of part 541 of this chapter or that has been identified by the manufacturer or preliminarily or finally determined by NHTSA to be a high-theft line under § 542.1, and

(ii) At least one passenger motor vehicle line that will be introduced into commerce in the United States on or after April 24, 1986 and that the manufacturer identifies as likely to have a theft rate below the median theft rate; and

(2) Each of those likely submedian theft rate lines.

(c) *Procedures.* (1)(i) For each new line that is to be introduced before the 1997 model year and that a manufacturer identifies under appendix C of part 541 of this chapter as likely to have a theft rate below the median rate, the manufacturer identifies how many and which of the major parts of that line
